

Indy 4

- One to four players
- 25" color monitor
- Four different colored race cars
- New track layout
- Optional digital pit stopper
- Adjustable game time
- Realistic sound effects

Now it's a four car race with Indy 4. Up to four drivers in four different colored cars can compete on a fast new track. Indy 4 is part of the same successful racing team as Indy 500. It's smaller, more compact and just as fast when it comes to high earnings. Also makes you a profit winner in every race.

Large 25" color monitor, attention-getting, protective smoked-plex canopy and 4 different colored cars add up to high visibility, attraction, and excitement.

A special design feature includes recessed-in pedals in the control panel to hold glasses. Keep spills away from scratch-sensitive plex video screen cover. **Compact Size:** Indy 4 is designed to fit into more versatile locations. You can put Indy 4 against the wall, or turn smaller series of (unused) stand floor footage into space that earns.

All metal foot pedals. Rugged accelerator and brake pedals last longer, won't lose contact.

Locking cashboxes for tight security in busy locations—dual coin mechanisms and latched cash doors comply with Indy 4's standard features.

Player-attracting sound effects.

As always, Indy 4 gives the excitement with 4 realistic sound effects—the deep roar of accelerating engines and screeching tires are irresistible.

Built to drive the distance.

Durastress™ tested, burned in circuitry, and reliable solid state electronics keeps Indy 4 always in the race, your profits non-stop.

Special-frame construction makes Indy 4 a durable computer.

Removable side panels for easy access to components and exclusive Insteppac™ parts backup keeps pit service fast and easy.

Special option: Indy 4 can be ordered with an optional Race Driver bill acceptor. Easier collections for you, more convenience for drivers.

Dimensions:

Height: 68", 171 cm. Width: 44", 111 cm. Depth: 44", 111 cm.

Get the pole position. Call your local Kee Games distributor or contact us at Atari, Inc., 2125 Martin Avenue Santa Clara, CA 95050 or phone (408) 994-1900.
